

Community Involvement Opportunities

Because this is such an important and exciting project, there are many opportunities planned for area residents and visitors to learn about what is happening, follow progress and participate in educational activities!

To receive regular email updates, send an email to whitelakehabitat@gmail.com with “subscribe” in the subject line.

Follow the project on Facebook. Click on the icon here or search for “White Lake Shoreline Habitat Restoration Project” on Facebook. Make sure to “like” the page!

Join us in the early fall for volunteer activities, which will be promoted via email, Facebook, and in the area newspapers.
