

Compost Bins

Composting, nature's own way of recycling, is the controlled decomposition of organic material such as leaves, twigs, grass clippings, and vegetable food waste. Composting helps to keep the high volume of organic material out of landfills and turns it into a great product for use in your garden or landscaped areas.

- **Easy access lid -- snaps shut to secure**
- **Sliding bottom door to remove compost**
- **Basic composting and user guide enclosed**

11 cu. ft.
24"x24"x36"
\$70

Rain Barrels

A rain barrel collects and stores rainwater from rooftops to use later for lawn and garden watering. Taking advantage of this free source of water also helps protect natural resources by preventing stormwater from carrying pollutants into our local waterways.

- **Comes with fittings and instructions**
- **Solid brass spigot to attach to garden or soaker hose & two overflow valves**
- **Anti-debris and mosquito screen**
- **Secure fitting lid for protection**

60 Gallon
32H x 28W
\$85
